Full hardness: Not applicable

Coverage

Theoretical: 5 - 15 m²/l, depending on the proportion base paint: Fair-Decor
Practical: Practical coverage depends on many factors such as porosity and roughness of the substrate and material losses during application.

SURFACE PREPARATION

After the normal preparations, apply the mixture of Fair-Decor / base paint by roller or flat brush on the substrate which contrasts with the colour of the base paint.

APPLICATION CONDITIONS

Apply at a temperature of min. 5°C.

REMARKS

- Mix Fair-Decor with a waterborne base paint in the proportion Fair-Decor / base paint 1 : 1 to 1.5 : 1. The finished product has to be considered as a "decorative effect coating" - VOC cat. A/I; EU Limit values 300 g/l (2007); 200 g/l (2007).
- Treat the wet coat with one of the following techniques: structural roller, sponge, chamois leather, comb, absorbing paper, plastic foil, etc.
- Dependent on the paint and the proportion with which Fair-Decor is mixed, it may be advisable to increase the mechanical resistance by applying a final coat of Divalo varnish and this after full cure of the applied mixture.

SAFETY

Consult Safety Data Sheet and Safety Information printed on the can.

SHELLIFE / STORAGE CONDITIONS

2 years from date of production in unopened cans, if stored in dry, well ventilated areas, not in direct sunlight at temperatures between 5° and 35°C.
