

Cladding Renovation

From colour change to complete renovation, we offer the solution!

Over the last forty years cladding has become the material of choice for many commercial buildings. And while the durability of the latest generation cladding has improved, sooner or later you will face the choice to reclad or refinish your building.

Reasons to paint cladding:

- Improve its lifetime by at least another 10 years
- Much more cost effective than replacement
- Minimal disturbance of the business processes
- Protect against atmospheric, chemical and mechanical deterioration
- Fully utilize the communication role of the building
- Available in virtually every colour

More than 15 million m² of cladding are protected by RUST-OLEUM® products
